# Preface

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: “The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration.”

The *Catalog* is subdivided into parts corresponding to the classes of material listed in section 5 of Title 17 of the *United States Code*. The table at the end of this preface shows the organization of the *Catalog*, the symbols used with the registration numbers to identify the classes, and the prices of the semiannual or annual issues.

The record of each copyright registration listed in the *Catalog* includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant as given in the application for registration, the copyright date, the copyright registration number, etc.).

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Information as to changes of copyright ownership is not included in the *Catalog*, but a search of the Copyright Office Assignments and Related Documents Indexes may be requested from the Register of Copyrights. A fee for the search and report will be estimated at the statutory rate of \$5 per hour.

For each registration listed, except for renewals, there has been deposited a copy or copies of the work in accordance with the provisions contained in sections 12, 13, 14, or 215 of Title 17 of the *United States Code*.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Orders may be placed for individual issues, as subscriptions for one or more parts, or for the complete *Catalog* at \$50 a year, for periods of one, two, or three years. All orders should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the Superintendent of Documents.

The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Such communications should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington, D.C. 20559.

## Organization of Parts

Each part listed in the following table records all current registrations in the class or classes indicated by the alphabetical symbols. Renewal registrations are listed separately at the end of each related part. Some parts also contain registrations made under symbols other than those listed for the particular part, if the subject matter or type of material is similar to that generally included in the part.

The first letter of the symbol is that of the class under which registration is made. Second and third letters, if any, that follow the initial letter are added by the Copyright Office for the purpose of statistical analysis. Their significance is as follows:

- F Published foreign works. In the case of books and periodicals, it designates works manufactured outside the United States (except those registered for ad interim copyright). In all other classes to which it applies, it designates works first published outside the United States, the authors of which are neither citizens nor domiciliaries of the United States. (AF, EF)
- I Books and periodicals registered for ad interim copyright. (AI, BI)
- ( ) Published works of foreign origin registered under the waiver-of-fee provision (section 215 of Title 17 of the *United States Code*). (BIO, GFO)
- P Domestic published works in classes for which registration is possible for either published or unpublished works. (EP, JP)
- U Unpublished works in classes for which registration is possible for either published or unpublished works. (DU, EU)

## Introduction

PART 5 lists domestic and foreign published and unpublished music registered in class E. It includes also selected music materials in the form of books, pamphlets, and dramatico-musical works registered in other classes. Works for which the copyright has been renewed are listed separately in the Renewal Registrations section.

Arrangement is by title. Each work is described in a main entry which includes information pertinent to the copyright claim. References are made from variant titles, from distinctive subtitles, and from other titles associated with the work.

The Name Index, issued as a separate section, to the names of composers, authors of words, claimants, etc., given in the main entries covers both currently registered works and renewal registrations, the latter being identified by the symbol (R).

For unpublished works currently registered, each main entry includes the following items of information if available and applicable:

- 1) Title. If the piece is an excerpt, the title of the work from which it is taken is also given.
- 2) Descriptive data if the title is generic, e.g., Sonata.

- 3) Names of the authors with designations indicating their relationship to the work.
- 4) Physical description including indication as to whether the work consists of score and/or parts.
- 5) Variant titles, only if taken from the application.
- 6) Names of authors given in the application which do not appear elsewhere in the entry.
- 7) Name of the employer in the case of a work made for hire, if so named in the application.
- 8) Information contained in the application which relates to the registration of an earlier version of the work.
- 9) Brief statement of the new matter on which copyright is claimed, preceded by the abbreviation NM, if this information is given in the application.
- 10) Copyright symbol ©.
- 11) A statement of limitation of claim if the application explicitly limits the claim.
- 12) Name of the copyright claimant.
- 13) Date on which the last of all items required

to complete registration (i.e., copy, application, and fee) was received in the Copyright Office.

14) Registration number.

For published works currently registered, each main entry includes the following items of information if available and applicable:

- 1) Title, and any descriptive data given in the work, including medium of performance.
- 2) Names of the authors with designations indicating their relationship to the work.
- 3) Edition statement.
- 4) Place of publication for all foreign works; and for domestic works if given in an imprint on the work.
- 5) Name of the first-named publisher given in an imprint on the work.
- 6) Physical description including indication as to whether the work is published in score and/or parts.
- 7) Series statement.
- 8) Special descriptive data which includes language of the text when it is not apparent from the entry.
- 9) Statement that the work is part of a collection or bound with another work.
- 10) Variant titles, only if taken from the application.
- 11) Names of authors given in the application which do not appear elsewhere in the entry.
- 12) Name of the employer in the case of a work made for hire, if so named in the application.
- 13) Information contained in the application which relates to the registration of an earlier version of the work.
- 14) Brief statement of the new matter on which copyright is claimed, preceded by the abbreviation NM, if this information is given in the application.
- 15) Copyright symbol ©.
- 16) A statement of limitation of claim if the application or notice on the work explicitly limits the claim.
- 17) Name of the copyright claimant.
- 18) Date of publication as given in the application.
- 19) Registration number.

For published music, whenever it is necessary to indicate a variation between the information given in the application and in the copy of the work with respect to the claimant's name or the date of publication, the data from the application is given first, followed by the phrase "in notice" and the data given in the work; e.g., © Editorial MRT; 1Sep72 (in notice: 1971); EP 302500.

Works deposited in connection with copyright registration may be selected for inclusion in the collections of the Library of Congress. Library of Congress printed cards are available for many of the published works so selected. Orders for such cards or inquiries concerning them should be addressed to the Card Division, Building No. 159, Navy Yard Annex, Washington, D.C. 20541.

For renewal registrations, the main entry includes the following items of information if available and applicable:

- 1) Title, and any descriptive data given in the application, including medium of performance. Abbreviations are transcribed as they are given in the renewal application.
- 2) Names of authors, with designations indicating their relationship to the work.
- 3) Edition statement.
- 4) Indication as to whether the original work consisted of score and/or parts.
- 5) Series statement.
- 6) Statement that the original work was part of a collection or bound with another work.
- 7) Brief statement of the new matter on which the original copyright was claimed, preceded by the abbreviation NM, if available in the renewal application.
- 8) Copyright symbol ©.
- 9) Date of original copyright.
- 10) Original registration number.
- 11) Name of the renewal claimant followed by a statement in parentheses, usually abbreviated, giving the basis of the renewal claim as supplied by the applicant; e.g., "John Doe (A)" indicates that John Doe has made renewal claim as an author.
- 12) Date of receipt of the renewal application or fee, whichever is later.
- 13) Renewal registration number.
